

March 10, 2005

Current State of the DAS:

- Name Change
 - DAS stands for Digital Asset System - formerly Digital Archiving System
- Beta Testing for the DAS began Nov. 1, 2004
- 2825 images were added to the system
- 410 video metadata records have been enhanced
- Extended the Goddard Core to fit LandSat Document Collection
 - LandSat Document Registration System is currently open for internal staff registration
- SWIFT Program metadata mapping to GC in process

Review Items:

- Type Element
- Unique ways to create persistent identifiers across all objects
- How to deal with versioning?
